

# YOUR VOICE IS ESSENTIAL FOR THE HEALTH OF BLACK WOMEN

Just as Black women are always looking out for each other, now is the chance to look out for yourself, too. Becoming a part of the VOICES of Black Women study will help us learn how to change the health and well-being for Black women for generations to come.

The American Cancer Society is looking for at least 100,000 Black women who are willing to lend their voices and be heard on a massive scale. Women who will effect positive changes in their communities.

## Join us today in VOICES of Black Women!

\*Enrollment will take place in Alabama, California, Florida, Georgia, Illinois, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Washington, D.C.
