

# A NEW FUTURE FOR BLACK WOMEN'S HEALTH STARTS WITH YOU.

We demand better outcomes for Black women's health – and with your help, we can make it happen. Your participation today is critical in reshaping the health outcomes for Black women for generations to come.

The VOICES of Black Women study, led by the American Cancer Society, is intentionally created with Black women at its center. We aim to better understand health conditions like cancer and improve health circumstances for Black women across the country.

We are rallying 100,000 Black women willing to lend their voices, be heard on a massive scale, and effect positive changes in the health of their communities. It takes a village, but it starts with you.

## Join us today in VOICES of Black Women!

\*Enrollment will take place in Alabama, California, Florida, Georgia, Illinois, Louisiana, Maryland, Massachusetts, Michigan, Mississippi, Missouri, New Jersey, New York, North Carolina, Ohio, Pennsylvania, South Carolina, Tennessee, Texas, Virginia, and Washington, D.C.

**VOICES**  
OF BLACK WOMEN

The best way to  
improve your  
quality of health  
is by taking  
advantage of  
opportunities to  
**make change  
happen.**

Your voice today can impact our collective future forever. **Get more information at [voices.cancer.org](https://voices.cancer.org).**
